

When I first heard about Sinclair's plans to broadcast a one sided anti-Kerry 'movie', I was alarmed to say the least. I immediately visited their website and wrote a letter expressing my concerns and hopes that the FCC would put a stop to such a flagrant abuse of the public airwaves. The FCC has since refused to step in since Sinclair has yet to actually show the movie, and they say that Sinclair will be fined if they do in fact break any broadcasting laws... A fine after the matter hardly seems sufficient since the election will be over before anything is done. I am pleading with you, my senators and congressman, to please find a way to prevent this injustice from occurring. Let's try to keep this election as fair under the law as it can be.

Sincerely,

Paul Freeman
